EDUCATION

Anadolu University   **Eskişehir, Turkey | 10.2024 – Present**
Bachelor's Degree in Economics
Currently pursuing a degree in focusing on analysis, data interpretation.

42 Kocaeli (École 42)   **Kocaeli, Turkey | 01.2022 – Present**
IT Architecture Specialist (RNCP6 – RNCP7)
Project-based, peer-to-peer learning model. Currently completing the
Common Core level with a focus on programming fundamentals and system engineering.

Dumlupınar University
Associate's Degree in Information Managment   **Kütahya, Turkey | 11.2020 – 01.2024**
Graduated with a focus on data management, information systems, and business processes.

PROFESSIONAL EXPERIENCE

Solvent Yazılım   **Kocaeli, Turkey | 08.2024 – 01.2025**
Full-Stack Developer
- Developed and integrated enterprise web applications using .NET (C#), ASP.NET Core, and JavaScript.
- Built and integrated SMS services and APIs to support healthcare software solutions.
- Implemented real-time communication features using SignalR to enhance interactivity.
- Contributed to database architecture and management using MSSQL and PostgreSQL.
- Participated in CI/CD pipelines, improving deployment efficiency through automation tools like Docker.

Kurgu Elektronik   **Kocaeli, Turkey | 01.2024 – 02.2024**
Intern
- Assisted in the development of web applications using the .NET MVC framework.
- Collaborated with team members to enhance existing websites and interfaces.
- Participated in frontend improvements for better usability and performance.
- Supported testing and debugging processes during development cycles.

Türk Telekom   **Kocaeli, Turkey | 10.2018 – 06.2019**
Intern
- Provided support in maintaining internal IT systems and resolving network issues.
- Assisted the IT operations team in daily tasks and infrastructure improvement projects.
- Gained insight into enterprise-level systems and telecom technologies.

ACHIEVEMENTS

Travel Hackathon Participant   **Istanbul, Turkey | 11.2022 – 11.2022**
- Collaborated in cross-functional team to develop a travel-related software project under time constraints, gaining recognition for innovative problem-solving.

Blockchain, NFT and Metaverse Hackathon Participant   **Kocaeli, Turkey | 06.2023 – 06.2023**
- Participated in a tech-focused hackathon, contributing to blockchain-based application development using modern web technologies. **Achieved 2nd place among all participants.**

ADDITIONAL SKILLS

Technical Skills
Proficient in C, C++, C#, Python, and JavaScript, with hands-on experience in frameworks and technologies such as ASP.NET Core, Entity Framework, ADO.NET, Django, FastAPI, NestJS, and Next.js. Skilled in building real-time applications using SignalR and developing RESTful APIs. Experienced in database management with PostgreSQL and MSSQL, and familiar with messaging systems like RabbitMQ. Knowledgeable in Docker and Docker Compose for containerization and CI/CD pipelines. Comfortable working with Git for version control, and well-versed in Linux systems and networking basics. Proficient in designing and implementing scalable backend systems using N-Layered and Onion Architecture in .NET applications.

Languages
English (Intermediate)

EXTRA-CURRICULAR & INTERESTS

École 42 Peer Learning Program – (RNCP6 – RNCP7)
- Engaged in a challenging, peer-to-peer, project-based learning environment aligned with RNCP Level 6/7 standards. Focused on system-level programming, algorithms, DevOps, and collaborative full-stack software development.

Nasilbifirma – Peer Startup Initiative
- Co-founded a peer-led project aimed at helping individuals evaluate companies through community-driven reviews and feedback. Built using Next.js for the frontend, .NET for the backend, and MS SQL Server as the database solution. Contributed to idea development, system architecture, and planning phases with a focus on user-centric design and scalable architecture.
